THE PROGRAM

We incorporate a 20-minute scrimmage/game as a stand-alone station each weekly practice. The focus at this age is to make players more comfortable with the ball at their feet and introduce the game in a relaxed environment. Your child will learn the basic fundamentals of soccer in a fun, yet structured environment. The academy program philosophy is to emphasize player development and focus on technical skill development of each child. Practice is broken into stations incorporating dribbling, passing, trapping, shooting, ball skills, agility footwork, attacking & defending concepts into fun games. Our goal is to make sure all players become technically sound on the ball, so that they can spend their time managing the challenges in the game, not the challenges of the ball, thus making soccer more enjoyable to play.
