

# SPONSORSHIP

## 2026-2027

Our mission is to develop athletic capabilities and strong character in young people.

Call them youth leaders. Call them agents of change. Call them capable, energized and inspired. Our kids call them “Coach”.

Each year, more than 100 South Lake County volunteers of the Clermont Knights influence real change with the children in our local community. Filled with talent and ideas, these volunteers are on a mission . . .

Established in 1998, Clermont Knights is a 501 (c) (3) Non-Profit Organization, and a subordinate member in good standing with Pop Warner Little Scholars, Inc.

Clermont Knights provide nationally ranked youth football and cheerleading programs to approximately 400 young people annually, ranging from ages 5 to 14 years old, in the South Lake Community.

With 25 + years of history, Clermont Knights continues to increase its community outreach and recognition in South Lake County, Florida, and is committed to developing a strong sense of character and good health in our young people. Our volunteers are local professionals who are Pop Warner - trained and certified to work directly with the children, along with their families and schools, to determine how to develop their athletes' skills and moral values most effectively. **One child at a time.**

Based on previous years' registrations, approximately 40% of the league's players are non-paying participants due to their families income status.

As our teams advance into the season through competition events, the cost to continue to fund the program becomes more than we are capable of raising. Therefore, many of our South Lake County kids cannot afford to train to be the athletes or compete to be the champions they dream of being.

Our goal for this upcoming season is to provide a cost-effective program to all participants so that every child has the same opportunity to succeed both athletically and scholastically.

For more information, please feel free to contact me at any time.

**Nino Gargano**
