

Game Changer Instructions

As a reminder – do NOT update your schedule on GameChanger. Update your schedule on the www.salinearealittleleague.com website. If you update it on GameChanger only the change will not transfer to the website. If you update it on the website – it will flow to the GameChanger app. Also, do not use GameChanger as your means to communicate with your parents until you've run a "test" message to ensure all parents have downloaded the app and are receiving messages. Your best bet is to send important messages via the website until you know everyone is using the app.
