

PATEADORES ACADEMY PROGRAM

MISSION

We believe that while creating an environment with an emphasis on organization, innovation, energy and competition we will unite members of our club in the pursuit of excellence. The club believes that placing an intelligently applied work ethic in the areas of academics and soccer helps develop maturity and self-confidence. We believe that the experiences a player has with the Pateadores will be beneficial throughout his lifetime. The goals of the Pateadores are as follows:

- ★ *To develop each player to his fullest potential as a person and as a soccer player.*
- ★ *To provide positive role models for younger players to emulate.*
- ★ *To positively impact the community.*
- ★ *To develop National Championship caliber teams.*
- ★ *To expose Pateadores players to USSF, collegiate and professional opportunities.*

PATEADORES ACADEMY

PATEADORES ACADEMY PROGRAM

PHILOSOPHY

- ★ *The team philosophy is just as important as the team*
- ★ *The idea of a team is more important than the player as an individual*
- ★ *The players must feel the need to defend the clubs history and culture*

To train and develop technically sound, tactically intelligent, physically strong and psychologically prepared players. We are committed to developing players in a challenging and positive environment who can reach their full potential and positively impact the game of soccer. It is important that all our players are prepared for the increasing demands of the game as they progress from the basic phase (age 6) to the advanced phase (age 19).

This past season we moved into a state of the art facility at Vanguard University, which will field all of our pre academy and academy teams. One full side field (120x76), 3 full side futsal fields.

A large part of our strategy is one of growth. Our plan is to continue to expand within our current footprint and be prepared to capitalize on additional opportunities in new cities as well. In addition, we have added a recreational league, which will dramatically impact our overall size.

Looking out over the next 5 years it is difficult to predict the overall breadth of our Club. We are preparing for long term and consistent growth. We are participating in the largest soccer marketplace in the USA. We are a well-known and respected organization and with that we should continue to execute our mission statement

PATEADORES ACADEMY PROGRAM

In the 2014/15 season we will be fielding over 120 teams and have a presence in the following markets: Rancho Santa Margarita, Mission Viejo, Irvine, Tustin, Costa Mesa, Anaheim, Huntington Beach, San Diego, Los Angeles and Redlands. We are a founding member of the new Southern California Developmental League, which focuses on development but also gives us unlimited growth potential. We are still focused on developing elite players but through our growth we now offer multiple playing experiences at varying levels for our boys and girls.

We have continued to enjoy much success on the field this past season

U13 Boys Cal South National Cup Champions

U13 Boys Regional Semi-Finalists

U15 Boys Cal South National Cup Champions

U15 Boys Cal South Regional Champions

U15 Boys National Champions
