

Northwest Forsyth American Little League Spring 2026
Tee Ball Baseball – Local Rules

The objective of Tee Ball Baseball is to have FUN learning the fundamentals of the game while providing as many opportunities (positions and innings) as possible for each player to play defense and bat.

Batting Order: All players present shall be in the batting order for the entire game. Free defensive substitution. See rule 4.04.

Playing Time: All Tee Ball players will play in the field the entire game. At least one full defensive inning must be at an infield position which includes 1B, 2B, SS, 3B or Pitcher. It is recommended that all players present play at least two innings at an infield position. Note: All players on the roster present may be given a defensive position. Only one player may occupy the infield positions.

Play: Rosters may have fewer than 8 players – the minimum to play a game is 5 players. In each inning, all players present will bat one time.

Time Limit: 1 hour

Ending an Inning: Each inning will end after the last player present bats (all players present bat each inning).

Coaches: We encourage all parents to get involved with their team and help with instruction. It is up to the manager to decide how many coaches are needed to help. These coaches shall not interfere with balls in play.

No digging is allowed: To maintain fields and prevent injuries, players may not dig while on defense. First offense is a warning, second offense is removal for that inning, and third offense is removal from the game.

The home team is required to line the field prior to the game. The visitor team is required to rake the field after the game.

5 minutes before the game, the teams should line up on their base lines to recite the Little League pledge.
