Background Checks

Requirement 4:

Little League International has established criteria for each chartered league's performance of an investigation into the background of all individuals who volunteer in any capacity. Each volunteer will be required to complete a volunteer application from and provide a copy of their government issued photo identification. The minimum requirement for these background investigations is verification that volunteers are not registered sex offenders. To provide additional protection to the children we will submit a list of all volunteers to JDP. A background investigation that will list any convictions nationwide will be completed. Upon clearance of individual background investigations all volunteers will be notified by The Board of Directors.

Little League® Volunteer Application – 2021

Do not use forms from past years. Use extra paper to complete if additional space is required.

This volunteer application should only be used if a league is manually entering information into JDP or an outside background check provider that meets the standards of Little League Regulations 1(c)(9). THIS FORM SHOULD NOT BE COMPLETED IF A LEAGUE IS UTILIZING THE JDP QUICKAPP. Visit LittleLeague.org/localGCheck for more information.

A COPY OF VALID GOVERNMENT ISSUED PHOTO IDENTIFICATION MUST BE ATTACHED TO COMPLETE THIS APPLICATION.

Concession Stand Guidelines

Requirement 9:

Every worker must be instructed on these guidelines before they can work.

Wash your hands regularly:

- Use soap and warm water.
- Rub your hands vigorously as you wash them.
- Wash all surfaces including the backs of hands wrists, between fingers and under fingernails.
- Rinse hands well.
- Dry hands well.
- Dry hands with paper towels.
- Turn off water using paper towel, instead of your bare hands.

Wash your hands in this fashion before you begin work and especially after performing any of these activities:

- After touching bare human body parts other than clean hands and clean exposed portions of arms.
- After using restrooms.
- After caring for or handling animals.
- After coughing, sneezing, using a handkerchief or disposable tissue.
- After touching soiled surfaces.
- After drinking, using tobacco, or eating.
- During food preparation.
- When switching from raw to ready to eat foods.
- After engaging in activities that contaminate hands.

Basic Rules:

1. Menu... smaller is better. No salads cut up fruit or vegetables, no food prepared at home.
2. Cook food thoroughly. Use a meat thermometer. Keep hotdogs and burgers at 41 degrees when cold and cook to 155 degrees or above when hot.
3. Rapidly reheat foods to 165 degrees. Slow cooking devices may activate bacteria and never reach killing temperatures.
4. All foods that require refrigeration must be cooled to 41 degrees F. as quickly as possible and held there until ready to use. To cool foods quickly, use the ice water bath (60% ice and 40% water), stirring the product frequently, or place their food in shallow pans no more than 4 inches in depth and refrigerate. Pans should not be stored one on top of the other and lids should be off or afar until the food is completely cooled. Check the

temperature periodically to see if the food is cooling properly. DO NOT LEAVE FOOD OUT AT ALL!!

5. FREQUENT AND THOROUGH HANDWASHING IS REQUIRED.
6. Only healthy people should prepare and serve food. Anyone with any symptoms of disease (cramps, nausea, fever, vomiting, diarrhea, cough etc.) or who has open sores or infected cuts on the hands should not be allowed in the food concession area. Workers' clothes should be clean, and they should not smoke in the concession area. Hair restraints are recommended.
7. Food handling: Avoid hand contact with raw food, ready-to-eat foods and food contact surfaces. Use a utensil and/or glove.
8. Use disposable utensils for food service. Keep your hands away from food contact surfaces and never reuse disposable dishware. Ideally utensils should be washed in a four-step method: (1) Hot soapy water, (2) Rinsing in clean water, (3) Chemical or heat sanitizing, (4) Air drying.
9. Ice that is used to cool cans/bottles should not be used in cup beverages. And should be stored separately. Use scoop to dispense ice, never use hands.
10. Wiping cloths should be rinsed and stored in a bucket sanitizer. (1-gallon water and 1/2 tsp. chlorine bleach. Change the solution every 2 hours.
11. Insect control and waste. Keep foods covered to protect from insects. Store pesticides away from food. Place garbage and paper waste in a refuse container with a lid that fits tightly. Dispose of all water in the restrooms, do not pour outside. All water that is used should be potable from an approved source.
12. Keep food stored off the floor at least 6 inches. After your event is finished, clean the concession area and discard any unusable food. Do not save food for reheating.

THE TOP SIX CAUSES FOR ILLNESS

1. Inadequate cooling and cold holding.
2. Preparing food too far in advance of service.
3. Poor personal hygiene and infected personnel.
4. Inadequate reheating.
5. Inadequate hot holding.
6. Contaminated raw foods and ingredients.

Concession Stand Tips SAFETY FIRST

Requirement 9

12 Steps to Safe and Sanitary

Food Service: The

following information is

intended to help you a

healthful concession stand.

Following these simple

guidelines will help minimize

the risk of foodborne illness.

This information was provided

by District Administrator

George Glick, and is excerpted

from "Food Safety Hints" by

the Fort Wayne-Allen County

Ind., Department of Health.

1. Menu

Keep your menu simple, and keep potentially hazardous foods (meats, eggs, dairy products, poultry, shellfish, fruits and vegetables, etc.) to a minimum. Avoid using pre-cooked foods or pre-cooked ingredients as a prepared source, avoiding foods that have been prepared at home. Complete control over food preparation and service is the key to safe, sanitary food service.

2. Cooking

Use a food thermometer to check on the holding temperature of potentially hazardous foods. All potentially hazardous foods should be held at 140° F or above (if hot). Ground beef and ground pork products should be held at 165° F or above (if hot). Poultry parts should be held at 165° F or above (if hot). Most foodborne illnesses that occur at concession stands are the result of failure to maintain food at the correct temperature.

3. Hand Washing

Hand washing is the key to safe, sanitary food service.

3. Refrigeration

Rapidly refrigerate potentially hazardous foods at 45° F or less. Do not attempt to heat foods in crock pots, steam tables, over sterno units or other holding devices.

Slow-cooking mechanisms may be used if the food is never held at killing temperatures.

4. Cooling and Cold Storage

Foods that require refrigeration must be held at 45° F or less. If it is not possible to hold it at that temperature until ready to serve, to cool foods down quickly, use ice and water (1/2 cup ice to 1/2 cup water), stirring the product frequently, or place the food in shallow pans no more than 2 inches deep and cover with refrigerants. Never stop the cold air from moving over the food. If the food has been undercooked, check temperature periodically to see if the food is cooling properly. Always use a food thermometer to make sure the food has been undercooked for the long time is the number ONE cause of foodborne illness.

5. Hand Washing

Proper and thorough hand washing remains the first line of defense in preventing foodborne disease. The use of single-service paper towels provide an additional barrier to contamination, but they are no substitute for hand washing!

6. Health and Hygiene

Food handlers should prepare and serve food. Anyone who shows symptoms of disease (cough, nausea, diarrhea, fever, etc.) or who has open sores or infected cuts on the hands should not be allowed to handle food. Handwashing is the key to safe, sanitary food service.

7. Food Storage and Cleanliness

Keep foods stored off the floor at least 6 inches. If this is not possible, clean the concession area and discard unusable items.

Inspection of Equipment

Requirement 10:

- This Little League requires regular inspection of playing equipment.
- Unsafe equipment should not be given in team equipment bags.
- Manager's Coaches and Umpires are required to inspect equipment prior to each use.
- Bad equipment will be logged and will be removed and destroyed.

Accident Reporting Procedure

Requirement 11:

What to Report: An incident that causes a Player, Manager, Coach or Umpire to receive medical treatment or first aid must be reported to The Safety Officer.

When to Report: All such incidents described above must be reported to The Safety Officer within 24 to 48 hours of the incident.

The Safety Officer is: NAME: Arthur Askil
Cell Number: 209-605-4054
Home Number:
Email: ottoask@gmail.com

How to Make a Report: Reporting incidents can come in a variety of forms. Most typically they are telephone conversations. At a minimum, the following information is needed.

1. The name and address of the injured person.
2. The date, time, and location of the incident.
3. As detailed of a description of the incident as possible.
4. The preliminary estimation of the extent of the injury.
5. The name and phone number of the person making the report.
6. Names and phone number of any witnesses.

In your safety packet you will find the injury report forms. If your Safety Parent is there, he/she can assist you in getting the front of the form filled out. Then a call is to be made to The Safety Officer reporting the incident within 48 hours. Little League insurance is a supplemental insurance to the insured's own insurance. There is a small deductible.

How to Replace the Injury Report Forms: The forms can be replaced by The Safety Officer or downloaded from www.leagueleague.org found under forms and publications.

FIRST AID KITS

Requirement 12:

Each team is provided with a league issued first aid kit. Each kit includes the following.

- (10) Adhesive sterile bandage
- (2) Extra-large adhesive sterile bandage
- (2) Non-adherent pads 2 x 3
- (2) Gauze pad 12-ply 3 x 3 sterile
- (1) Adhesive tape
- (2) Instant cold compress 4 x 4
- (3) Triple antibiotic ointment
- (3) Antiseptic towelette
- 1/8 oz. Burn Cream
- (3) Sting relief wipes
- (1) Tweezers

Communicable Disease Procedures

1. Bleeding must be stopped, the open wound covered, and the uniform changed if there is blood on it before the athlete may continue.
2. Routinely use gloves to prevent mucous membrane exposure when contact with blood or other body fluids is anticipated (Provided in the first aid kit).
3. Immediately wash hands and other skin surfaces if contaminated with blood.
4. Clean all blood contaminated surfaces and equipment.
5. Managers, Coaches, and Volunteers with open wounds should refrain from all direct contact until the condition is resolved.
6. Follow accepted guidelines in the immediate control of bleeding and disposal when handling bloody dressings, mouth guards and other articles containing body fluids.

Enforcement of Little League Rules

- ✓ Made sure a First Aid kit is available
- ✓ Checked conditions of fences, backstops, bases and warning track
- ✓ Made sure a working telephone is available
- ✓ Held a warm-up drill

Make Sure They Are Safe!

REMEMBER:
Catchers must wear helmets during warm-ups and infield/outfield practice.

RULE 1.08
*...All catchers must wear a mask, 'dangling' type throat protector and catcher's helmet during infield/outfield practice, pitcher warm-up and games."

Lightning Facts and Procedures

Consider the following facts:

- The average lightning stroke is 6-8 miles long.
- The average thunderstorm is 6-10 miles wide and travels about 25 miles an hour.
- On the average, thunder can only be heard over 3-4 miles, depending on humidity, terrain, and other factors. This means that by the time you hear the thunder, you are already in the risk area for lightning strikes.

Rule of Thumb: The ultimate truth about lightning is that it is unpredictable and cannot be prevented. Therefore, a manager or coach who feels threatened should contact the head umpire and recommend stopping play and clearing the field. In our league the umpire makes the decision as to whether play is stopped. Once play is stopped, take the kids to safety until play resumes or game is called.

Where to Go? No place is safe from lightning threat, but some places are safer than others. Constructed buildings are usually the safest. Most people will find shelter in a fully enclosed metal vehicle with the windows rolled up. If you are stranded in an open area, put your feet together, crouch down and put your hands over your ears to prevent eardrum damage.

Where not to go? Avoid high places and open fields, isolated trees, unprotected gazebos, rain or picnic shelters, dugouts, flagpoles, light poles, bleachers, metal fences and water.

First Aid for a Lightning Victim:

- Call 911 immediately.
- Typically, the lightning victim has similar symptoms as that of someone having a heart attack. Consider: will moving cause anymore injury. If the victim is in a high-risk area, determine if movement is necessary. Lightning does strike twice in the same place. If you are not at risk, and moving is a viable option, you should move the victim.
- If the victim is not breathing, start mouth to mouth resuscitation. If it is decided to move the victim, give a few quick breaths prior to moving the victim.
- Determine if the victim has a pulse. If no pulse is detected, start cardiac compressions as well.

NOTE: CPR should only be administered by a person knowledgeable and trained in the technique.

Remember: Safety is everyone's job. Prevention is the key to reducing accidents to a minimum. Report all hazardous conditions to the Safety Officer or another Board Member immediately. Do not play on an unsafe field or with unsafe equipment. Check the teams' equipment prior to each use.

Hydration

*Managers are required to bring water to each practice and game.
Players are encouraged to bring bottled water or sports drinks.*

Tips to Prevent Heat Illness:

- Know that once you are thirsty you are already dehydrated.
- Drink before you become thirsty.
- Drink plenty of liquids like water, or sports drinks every 15 minutes.
- Water seems to be the preferred beverage. Water has many critical functions in the body that are important for performance they include, carrying oxygen and nutrients to exercising muscles.
- Do not drink beverages with caffeine before practice or games. Caffeine can increase the rate of dehydration.
- Do not exercise vigorously during the hottest time of the day.
- Practice in the morning and during the latter part of the evening.
- Wear light color loose cloths.
- Use sunscreen to prevent sunburn.
- If you begin to feel faint or dizzy stop your activity and cool off by sitting in the shade, air-conditioned car or use a wet rag to cool you off.

How is it treated?

Emergency medical treatment is necessary. If you think someone has heatstroke, call 911 or a doctor immediately. In the meantime, give first aid as follows:

- Move the person to a shady area.
- Cover the person with a wet sheet and keep the sheet wet for cooling from evaporation.
- Fan the person with paper or an electric fan (preferably not cold air).
- Sponge down the body, especially the head, with cool water.
- Continue giving first aid until the body feels cool to the touch.
- If the person is conscious, let them sip water, fruit juice, or a soft drink.

Submitting Player, Manager and Coach Data

Requirement 14:

Player, Manager, and Coach information will be submitted through the Little League Data Center at www.littleleague.org by March 1, 2022 or two weeks following the draft.

Requirement 15:

We will answer the survey questions in the Little League Data Center.

Concussions

All 50 states have laws specific to the management of concussions and head injuries. Some states require not just leagues but DA's, ADA's, and umpires to undergo annual training.

- Some states may affect only school-based activities, but many also address any group using school facilities or grounds for athletic purposes.
- Little League has developed a concussion overview page for each state that will be similar to the Child Abuse page.
- The CDC (Centers for Disease Control and Prevention) website is a great tool for leagues to encourage their managers/coaches, parents, and players to review concussion information • www.cdc.gov/concussion/HeadsUp/youth.html Concussions
- DA's must also be aware of their state's respective laws, especially during any Special Games events or International Tournament games being hosted by the District.
- Failure to adhere to these laws could expose the District and/or host to unwanted liability and penalties • Some states require that the participant and a parent/guardian must sign and acknowledge that they understand the risks of concussions before they can participate
- The majority of states also require immediate removal from competition if a person has sustained a concussion and that they cannot return until being released in writing by a medical professional.

The image shows a two-page spread of the 'HEADS UP CONCUSSION' information sheet. The left page is titled 'CONCUSSION Information Sheet' and the right page is titled 'HEADS UP CONCUSSION'. Both pages contain text and bullet points about concussions, along with a QR code and a 'CDC' logo.

CONCUSSION Information Sheet

This sheet has information to help protect your children or teens from concussion or other serious brain injury. Use this information at your children's or teens' games and practices to learn how to spot a concussion and what to do if a concussion occurs.

HEADS UP CONCUSSION

What Is a Concussion?

A concussion is a type of traumatic brain injury—or TBI—caused by a bump, blow or jolt to the head or body that causes the head and brain to move quickly back and forth. This fast movement can cause the brain to bounce around or撞擊 the skull, creating chemical changes in the brain and sometimes stretching and damaging the brain cells.

How Can I Help Keep My Children or Teens Safe?

Sports are good for children and teens to stay healthy and can help them do well in school. To help lower your children's or teens' risk of getting a concussion or other brain injury, you should:

- Help create a culture of safety for the team.
- Work with their coach to teach ways to lower the chance of getting a concussion.
- Talk with your child or teen about concussions and ask if they have concerns about reporting a concussion. Talk with them about their concerns; emphasize the importance of reporting concussions and taking time to recover from one.
- Ensure that they follow their coach's rules for safety and the rules of the game.
- Let your child or teen know that you expect them to practice good sportsmanship at all times.
- When appropriate for the sport or activity, teach your children or teens how they may need to wear a helmet to lower the chance of getting a concussion. Helmets are not a guarantee of safety. However, there is no "concussion-proof" helmet. So, even with a helmet, it is important for children and teens to avoid hits to the head.

Talk with your children and teens about concussion. Tell them to report their concussion symptoms to you and their coach right away. Some children and teens think concussions aren't serious or worry that if they report a concussion they will lose their position on the team or look weak. Be sure to remind them that it's better to miss one game than the whole season.

HEADS UP CONCUSSION

Concussions affect each child and teen differently. While most children and teens with a concussion feel better within a couple of weeks, some will have symptoms for months or longer. Talk with your children's or teens' health care provider if their concussion symptoms do not go away or if they get worse after they return to their regular activities.

What Are Some More Serious Danger Signs to Look Out For?

In rare cases, a dangerous collection of blood (hematoma) may form on the brain after a bump, blow, or jolt to the head or body and can cause pressure on the brain. If your child or teen has any of the following danger signs after a bump, blow, or jolt to the head or body, or if they just "don't feel right," get medical help right away:

- One pupil larger than the other.
- Drowsiness or inability to wake up.
- A headache that gets worse and does not go away.
- Slurred speech, weakness, numbness, or decreased coordination.
- Repeated vomiting or nausea, convulsions or seizures (shaking or convulsions).
- Unusual behavior, increased confusion, restlessness, or agitation.
- Loss of consciousness (passed out/knocked out). Even a brief loss of consciousness should be taken seriously.

Children and teens who continue to play while having concussion symptoms or who return to play too soon—while the brain is still healing—have a greater chance of getting another concussion. A repeat concussion can occur while the brain is still healing from the first injury and can be very serious and can affect a child or teen for a lifetime. It can even be fatal.

What Should I Do If My Child or Teen Has a Possible Concussion?

As a parent, if you think your child or teen may have a concussion, you should:

1. Remove your child or teen from play.
2. Keep your child or teen out of play the day of the injury. Your child or teen should be seen by a health care provider and only return to play with permission from a health care provider who is experienced in evaluating for concussions.
3. Ask your child or teen's health care provider for written instructions on helping your child or teen return to school. You can give the instructions to your child's or teen's school nurse or to your child or teen to give to their coach and/or athletic trainer.

Do not try to judge the severity of the injury yourself. Only a health care provider should assess a child or teen for a possible concussion. Your child or teen may seem fine right away after the injury, but you may not know how serious the concussion is at first, and some symptoms may not show up for hours or days. The brain needs time to heal after an injury. A child or teen's return to school and sports should be a gradual process. Athletes who return to school and sports should be gradually increased and carefully managed and monitored by a health care provider.

Turlock American Little League Concussion Prevention, Treatment and Management Policy

The Legislature enacted a law which requires youth sports organizations to adopt a policy concerning the prevention and treatment of injuries to the head which may occur during a youth's participation in competitive sports, including, without limitation, a concussion of the brain.

A concussion is a brain injury that results from a bump, blow or jolt to the head or body which causes the brain to move rapidly in the skull and which disrupts normal brain function. The Centers for Disease Control and Prevention of the United States Department of Health and Human Services estimates that as many as 3.8 million concussions occur each year in the United States which are related to participation in sports and other recreational activities. Athletes who continue to participate in an athletic activity while suffering from a concussion or suffering from the symptoms of an injury to the head are at greater risk for

catastrophic injury to the brain or even death. Ensuring that a Little League player who sustains or is suspected of sustaining a concussion or other injury to the head receives appropriate medical care before returning to baseball activity will significantly reduce the child's risk of sustaining greater injury in the future.

THEREFORE, **Turlock American Little League** hereby adopts the following policy for purposes of prevention, treatment, and management of injuries to the head that may occur during a player's participation in the Little League program, including, without limitation, a concussion of the brain:

1. Prior to a team's first practice each season, every manager, coach, and adult assistant shall:

a) Familiarize themselves with the CDC publication "Heads Up – Concussion in Youth Sports – A Fact Sheet for Coaches". This publication will be provided to all such individuals by the League Safety Officer or other Board members; and,

b) Complete the CDC on-line training course at:

<https://www.train.org/cdctrain/course/1089818/>

A copy of the Certificate of Completion for each of the above individuals shall be submitted to the League Safety Officer.

2. If a Little League player sustains, or is suspected of sustaining, an injury to the head while participating in any Little League game or even the player must:

a. Be immediately removed from the game or event; and

b. May only return to Little League activity if the parent or legal guardian of the player provides a signed statement from a provider of health care indicating that the youth is medically cleared for Little League participation and the date on which the player may return to participation.

3. The Little League player and his or her parent or legal guardian must sign the statement below acknowledging that they have read and understand the terms and conditions of the policy and agree to be bound by the policy.

Turlock American Little League Concussion Prevention, Management and Treatment Policy

Player and Parental Acknowledgement

We, the undersigned, acknowledge that we have been provided with a copy of the Turlock American Little League Concussion Prevention, Management and Treatment Policy, and that we have read and understand the policy, or it has been read to us and we understand the same. We hereby agree to follow all procedures set forth in said Policy at all times during which our son or daughter participates in Little League activities and events.

Safe Sports Act

- "Protecting Young Victims from Sexual Abuse and SafeSport Authorization Act of 2017" became federal law in 2018
- The goal of SafeSport is to protect children from abusive situations by engaging more people in the reporting and education processes
- A volunteer now can be held legally responsible if they have firsthand knowledge and fail to report any type of Child Abuse to the correct parties
- SafeSport covers all types of Child Abuse both physical and psychological

- SafeSport prompted USA Baseball to create Pure Baseball

USA Baseball Pure Baseball Initiative

- Little League International and all local little league programs must adhere to the following requirements from the SafeSport Act:
- Reporting of Abuse involving a minor to the proper authorities
- All volunteers of a local league are now mandated reporters and could face criminal charges if the league chooses to ignore, or not report to the proper authorities, any witnessed act of child abuse, including sexual abuse, within 24 hours.
- Local leagues must be aware of the proper procedures to report any type of abuse in their state. Please reference www.LittleLeague.org/ChildAbuse
- Leagues must adopt a policy that prohibits retaliation for “good faith” reports of child abuse.
- Leagues must adopt a policy that limits one-one-one contact with minors.
- Leagues are highly encouraged to complete the Abuse Awareness training provided by USA Baseball and/or SafeSport.
